READY-MADE CONNECTORS

Plug into the ERP Solution

SAP
Enterprise ERP

Oracle
Enterprise ERP

Microsoft Dynamics
Enterprise ERP

TallyPrime
SME accounting

Odoo
ERP

Zoho
Books

TMBill
Restaurant POS

Custom
REST API & files

We are an ERP company first. We have built connectors for every key ERP in the market, from SAP to Tally, and our customers are already live.

OUR STRENGTH

Integration is our home ground

01 Connect
Ready-made connector or REST API to your ERP or POS.

02 Map & validate
Fields mapped once; every invoice checked before it leaves.

03 Submit & track
UBL 2.1 via PEPPOL to OTA, with live status and audit trail.

Thoughts

From POS, Accounting, ERP Software to e-invoice. *End to end*

We have built connectors for every key ERP in the market - SAP, Oracle EBS, Microsoft Dynamics, Odoo, Zoho, TallyPrime, etc., and our customers are already live.

for all POS & ERP Software

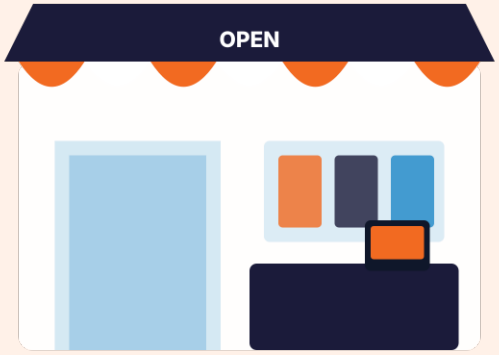

OMAN E-INVOICING SOLUTIONS

In partnership with AiBizs

OTA-APPROVED ASP

BUILT FOR B2C

Made for every counter in Oman

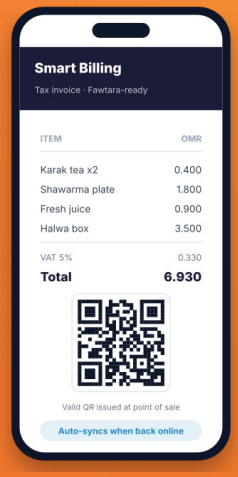

- Retail & Supermarkets
- Restaurants & Cafés
- Pharmacies & Clinics
- Van & Field Sales

High volumes, busy counters, patchy internet: our solution keeps every sale compliant.

MOBILE BILLING APP

A billing app with e-invoicing built in

- Invoice in seconds
- Print or share with QR
- Every sale compliant

Invoice anywhere. Even offline.

OFFLINE TECHNOLOGY

No Internet? Keep Selling.

Our offline engine was built specially for B2C, where a dropped connection must never stop a sale.

1

Bill as usual

Your cashier rings up the sale on POS or our app.

2

Valid QR, instantly

A compliant invoice with QR prints at the counter, even with no connection.

3

Auto-sync to OTA

When the line returns, invoices submit automatically. Nothing is lost.
